NHS COMMISSIONER

"Kooth forms a key part of our focus on early intervention and prevention. The service provides help to young people with emotional wellbeing and mental health concerns at the earliest opportunity, reducing the escalation of need. The service is clearly valued by children and young people in our area and quarterly case studies evidence the excellent outcomes for those interacting with the service. Kooth provides a safe, non-judgemental, therapeutic space for our young people."

"We've been impressed with the take-up of Kooth, which shows us how important a digital component to mental health support is. We look forward to working with Kooth to support more students in our care and to seeing a continued positive step- change in the way support is sought and delivered."

Chat with William

Good evening, I'm William. How are you feeling today?

Not great today to be honest... I have an exam tomorrow and I don't think I can go in and take it :)
